### 2.1 Procedure

Title: SouthWest 380kV East - Steel Road Plates - TenneT TSO B.V.

Description: This Tender is performed by TenneT TSO B.V (TenneT). TenneT is a leading European electricity Transmission System Operator (TSO) with its main activities in the Netherlands and Germany. With over 23,000 kilometers of high-voltage connections we ensure a secure supply of electricity to 41 million end-users. TenneT employs approximately 4,500 people and has a turnover of EUR 4.1 billion. TenneT is one of Europe's major investors in national and cross-border grid connections on land and at sea, bringing together the Northwest European energy market and enabling the energy transition. TenneT takes every effort to meet the needs of society by being responsible, engaged and connected. Taking power further. TenneT is a key player in the electricity supply chain. This chain consists of producers of electricity from both conventional and renewable fast-growing energy sources, grid companies that transmit electricity (including TenneT), electricity suppliers, customers (industrial and small-scale users) and prosumers (energy consumers acting as producers). TenneT's high-voltage grid is connected to regional and local distribution grids managed by various other grid companies (so-called Distribution System Operators, DSO's) and directly to large industrial customers. More information about TenneT can be found at [www.tennet.eu](http://www.tennet.eu). As the project portfolio needed to realise the energy transition is ever growing, TenneT is looking to purchase a large amount of steel road plates to realise said projects.

#### 5.1.10 Award criteria

Criterion:

Type: Price

Name: Lowest Price

Description: TenneT intends to award the Contract to the Most Economically Advantageous Tender (MEAT), which is calculated based on the Lowest Price (LP). The Lowest Price will be applied, because the technical specifications and minimum required quality are clearly defined. There is no, or limited, potential for added value due to the nature of the scope as this entails homogeneous commodities. The potential added value does not measure up to the extra costs for Best-Price-Quality-Ratio and could be considered disproportional.
